COMMUNITY POSITIVE & ENGAGEMENT EDGE:
WHERE PUBLIC SERVICE MEETS POSSIBILITY

The Community You Dream About? It's Closer Than You Think

Helping Build Stronger Connections
Between Local Government & Residents

You Know That Feeling When...

- ▶ *Public meetings feel more like battles than conversations*
- ▶ *Talented people avoid local government work because of the reputation*
- ▶ *Residents and city leaders talk past each other instead of working together*
- ▶ *Good ideas get lost in frustration and mistrust*

What if we told you this doesn't have to be your reality? Communities across America are proving that something better is not only possible—it's already happening.

Imagine Your Community Where...

- ✓ City and county staff wake up excited about the difference they're making
- ✓ Neighbors actively participate because they know their voices shape real decisions
- ✓ Trust grows stronger through consistent, authentic engagement
- ✓ Young people choose public service and volunteerism as a way to build the future they want
- ✓ Meetings become collaboration spaces where neighbors solve problems together

This isn't wishful thinking. We're seeing it happening in communities just like yours!
